

Spike-slab 10D | seed 0 | classic Kish ESS 15,633

— Classic weighted posterior
— Deterministic marginal reference

d0 = 300; all phantom states eligible as seeds
A+C: evidence-improving allocation after goal 1
Goal iterations: 18; 16.574 million likelihood calls
Classic posterior weights only

Stopped at classic $\sigma(\log Z) = 0.04964$
Requested target: $\sigma(\log Z) < 0.05$
